
Error Subscribing

Posted by tkw - 2007/11/20 15:56

I have added the user & email form to my website, but after click on to the subscribe button, this is what was shown. Does anyone know how to fix this problem? Appreciate very much for you help in advance.

I think you're specifying the wrong path to your phplist installation...

as the error means that it cannot read from your phplist configuration file.

Let me know,

Regards,

Ivan
